

Intelligent Lockers

A Smart, Secure Storage and Chain-of-Custody Solution

Benefits

Elevated Experience for End Users

- 24/7/365 accessibility
- Bluetooth, RFID, and PIN access options
- Administrative remote unlocking for forgotten passcodes
- Optional integrated device charging ports available
- Adjustable shelving for customized organization

Process Improvement with Usage Reports

- Multi-use options for underutilized lockers
- Customizable workflows to meet organizational needs

Increased Security

- End-to-end automated chain of custody tracking
- Cameras available to record all transactions
- Notifications to employees if locker doors are left open

Safety in Today's Environment

- Contactless delivery and exchange
- Clean Locker Verification workflow
- Antimicrobial surface materials available

XBP Global's Intelligent Lockers are a safe, secure, easy-to-use automated package delivery system. With the addition of our Clean Locker Verification tool and optional antimicrobial surface materials, Intelligent Lockers offer excellent versatility, value, and safety as a no-contact storage and exchange solution.

These smart lockers are highly customizable, with multiple sizes, finishes, and configurations that work with any decor. With our cloud-based locker management software, locker banks can run as standalone kiosks or be connected as an integrated locker network.

KEY USES

Day Storage

Ideal for facilities with frequent visitors and for students or employees who need short-term storage.

Delivery & Exchange

Reliable, secure, trackable, no-contact package delivery and item exchange.

Order Pickup & Return

A safe, convenient option for buy-online-pickup-in-store (BOPIS) orders and contactless customer returns.

EASY ACCESS

With multiple locker access options, XBP Global's Intelligent Locker systems are designed to make the storage and retrieval process simple and secure. Lockers can be accessed via XBP Global's integrated mobile app, embedded RFID chips, or the onboard touchscreen.

COMMON APPLICATIONS

Intelligent Locker solutions streamline mail and package delivery and simplify the storage and exchange of personal items.

Common applications include:

- Inbound Package Delivery
- Outbound Package Drop-Off
- Valuable Item Exchange
- Employee and Visitor Day Storage
- Employee Assigned Storage
- Asset Exchange and Management

COMPLETE ACCOUNTABLES TRACKING

Intelligent Lockers can be combined with XBP Global's Accountable Tracking technology to create a complete end-to-end package receiving and asset-tracking solution.

- Pre-arrival processing
- Dockside scanning
- Mobile and desktop processing
- Building check-in/check-out
- Locker pre-assignment during inbound receiving process
- Carrier information validation

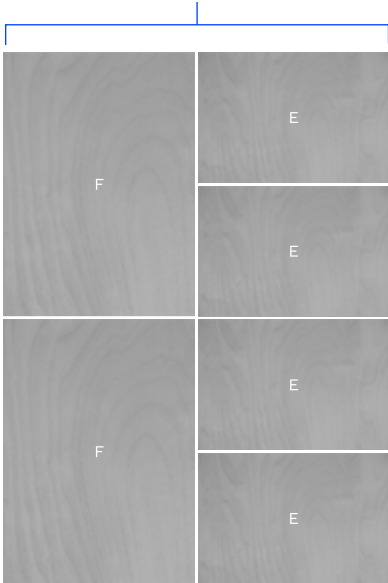

INTELLIGENT LOCKERS SPECIFICATIONS

Configuration Options:

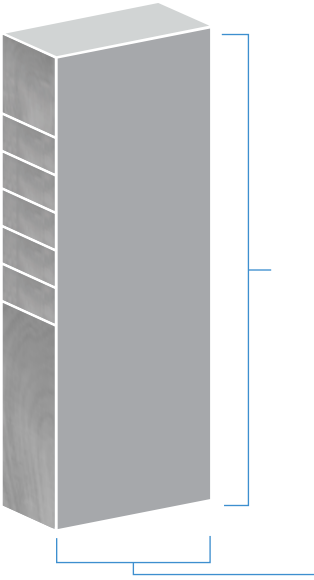

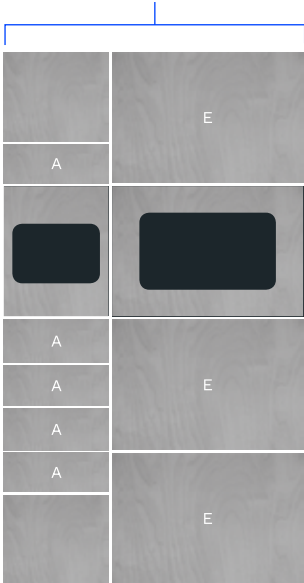

18" Wide Columns

29" Wide Columns

Console Centers

Locker Column
Height: 77.5"

Column Depth:
25.5"

Locker	Hight	Width	Depth
A Size	5"	13.5"	24.13"
B Size	11.25"	13.5"	24.13"
C Size	17.25"	13.5"	24.13"
D Size	29.5"	13.5"	24.13"
E Size	17.25"	24.63"	24.13"
F Size	36.75"	24.63"	24.13"

Notes

- Each column is 25.5" deep and 77.5" tall
- Requires WiFi or an ethernet network connection and an external static IP address for each bank of lockers
- Power - 120v is required, to be positioned behind the console. Dedicated line is ideal, but not required.
- Our systems are managed through our proprietary cloud server, based in Azure. This enables complete management of all locker systems within an organization and allows for remote software updates and system support.
- Available in numerous colors and wood grain finishes
